

To Whom it May Concern;

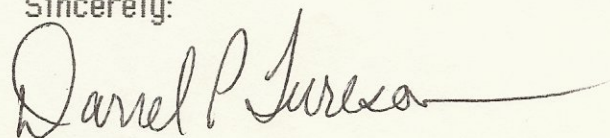

This letter is being written to recommend the services of Dennis Parker as a hypnotherapist.

We came in contact with Mr. Parker when we attended a goal setting session set up by our company. During this session Mr. Parker gave us a glimpse of what hypno-therapy could do for each of us.

As a direct result of that session first my wife Kathy, then my son Micheal, my daughter Wendy, and finally myself have sought his assistance in finding out who we are. He helped us individually reach into our past, find what was troubling us, face it, and finally use it to our advantage. He gave us the knowledge and power to reach out and control our own destinies.

Mr. Parker is a facilitator, a teacher, and a true humanitarian of the highest quality and we would and have recommended him to friends and associates.

Sincerely:

A handwritten signature in cursive script that reads "Darrel P. Tureson". The signature is written in dark ink and has a long, horizontal flourish extending to the right.

Darrel P Tureson
