To whom it concerns,

This letter is to inform you that Dennis Parker's Sales and Marketing Class was excellent. I enjoyed the straight forward approach he took in the program. He also related life experiences of good, but also of "Bad" that was extremely helpful.

Although I've been in other seminars of this nature, this one has been the "best" so far.

I thank him for his time and the encouragement to go out and help the customer "save time, labor and money".
