

Dennis,

Thank you very much for your very helpful + interesting presentation. Although a lot of the information was stuff I'd already heard, it was very valuable to keep it top of mind. You made it interesting enough that I really enjoyed it. I've had quite a bit of sales training and I found your class to be one of the best. The information on hypnosis was very interesting and helped me better understand the conscious + subconscious mind. I'm sure that my sales career will greatly improve when I implement some of the strategies you taught us. You are an excellent speaker + I liked how you kept it light by throwing in some humour.

Sincerely

Julie Pelletier
