Dear Dennis,

I just wanted to take a moment and tell you how happy I was with your presentation at our Annual Member Conference at the Disney Land Hotel. Your presentation was one of the largest groups we had attend the bread-out sessions. There were some who came in on the second segment who would liked to have attended the first half in order to get the background information you gave.

After the meeting I talked with several people about your presentation and they were very complimentary of the subject matter and your professional manner in removing the "Mystery" of hypnotism. You laid down the foundation that gave everyone the desire to learn more and realize that one is always in control of his or her actions. That was a key point that provided a comfort level to go on to the next segment of actually going into the self-hypnosis state of mind.

Thank you for doing such a great job and giving us a new outlook on life that is refreshing and uplifting. Your little booklet, *PEACE OF MIND*, is very helpful as a follow up to what you presented and can be used to continue what you taught.

Sincerely,

A handwritten signature in cursive script that reads "Pat".
